

# Going Under

Trapt

You and me going under  
Going under, going under so deep  
You and me going under  
Going under, going under so deep

You got me strung up and strung out  
High and dry, crashing down  
I've been locked up and locked down  
Can't touch you, not right now

I know you feel it too  
(I know you feel it too)  
I know it's real for you  
Can you feel this

You and me going under  
Going under, going under so deep  
You and me going under  
Going under, going under so deep

I watched you fade in and fade out  
Through the shadows of all your doubt  
What do you hold in, why do you hold out  
Can't get through, don't know how

I know you feel it too  
(I know you feel it too)  
I know it's real for you  
Can you feel this

You and me going under  
Going under, going under so deep  
You and me going under  
Going under, going under so deep

You and me going under  
Going under, going under so deep  
You and me going under  
I am holding my hand out  
Don't you let me sink

I wanted everything from you  
You wanted everything from me  
I wanted more than you can give  
You and me going under

You wanted everything from me  
I wanted everything from you  
You wanted more than I can give  
You and me going under so deep

I'm not really down  
Still I'm sinking in the quicksand  
Got to get out  
Can we ever find a way back

You and me going under

You and me going under so deep

You and me going under  
Going under, going under so deep  
You and me going under  
Going under, going under so deep

You and me going under  
Going under, going under so deep  
You and me going under  
I am holding my hand out  
Don't you let me sink
