

# Heading For The Light

Traveling Wilburys

**G A C D**

**G** **A**  
1. I've wandered around with nothing more than time on my hands  
**C** **D**  
I was lost in the night with no sight of you  
**C** **D**  
And at times it was so blue and lonely  
**G C D**  
Heading for the light

2. Been close to the edge, hanging by my fingernails  
I've rolled and I've tumbled through the roses and the thorns  
And I couldn't see the sign that warned me, I'm  
Heading for the light

**Em D C G**  
R1: Ooh, I didn't see that big black cloud hanging over me  
**Em D C**  
And when the rain came down I was nearly drowned  
**A G**  
I didn't know the mess I was in

3. My shoes are wearing out from walking down this same highway  
I don't see nothing new but I feel a lot of change  
And I get the strangest feeling, as I'm  
Heading for the light

R2: Ooh, my hands were tied by jokers and fools on either side  
But still I kept on till the worst had gone  
Now I see the hole I was in

4. = 3.

5. I see the sun ahead, I ain't never looking back  
All the dreams are coming true as I think of you  
Now there's nothing in the way to stop me  
Heading for the light
