

Curvin Everybody

Travis Garland

Girl you're bad as fuck, they can't tell you nothing
Out here turnin' up until I met you babe
Now you got me stuck, ain't gonna let you get away
Let you get away

Catching all these feelings, hoping that I'm not alone
Never needed the attention, girl it's always gonna come
Fucking all of these bitches is cool but I'm only tryna fuck with you

I be out here curvin' everybody
Everybody, everybody
Girl you got me curvin' everybody
'Cause I want your body, want your body

By now you should now, every word that I say
I promise that I mean it
It's 2 A.M., who's blowin' you up?
Hope that you give 'em the silent treatment
Cause you're thinkin' 'bout me, thinkin' bout me
And I can tell you're scared girl, 'cause you be

Catching all these feelings, promise that you ain't alone
You never needed the attention, girl it's always gonna come
'Cause every man wanna hit it
It's cool, but I hope you only fuck with me

Girl I hope you curvin' everybody
Everybody, everybody
Hope you're out here curvin' everybody
'Cause I want your body, want your body

And when It's late I find excuses just to hit you
No tellin' just what type of shit we could get into
I know it's hard to open up with all you been through
But I don't want nobody else (no), I don't want nobody else (no)
And when It's late I find excuses just to hit you
The way that ass looks in that dress is such an issue
Got on them heels, laying in my bed, girl it's official
That I don't want nobody else (no), I don't want nobody else (no)

Catching all these feelings, hoping that I'm not alone
Never needed the attention, girl it's always gonna come
Fucking all of these bitches is cool but I'm only tryna fuck with you

I be out here curvin' everybody
Everybody, everybody
Girl you got me curvin' everybody
'Cause I want your body, want your body

Girl I hope you curvin' everybody
Everybody, everybody
Hope you're out here curvin' everybody
'Cause I want your body, want your body
