

# Cup So Muddy

Travis Porter

I've been counting dirty money, sipping purple all day  
I've been counting dirty money, sipping purple all day  
I've been counting dirty money, sipping purple all day  
I've been counting dirty money, sipping purple all day  
He ain't talking money  
He ain't talking money  
He ain't talking money, don't even come my way  
He ain't talking money, don't even come my way

Smoking cush, clutching my cup  
Nine times out of ten, I'm drugged up  
Middle fingers up, we don't give a fuck  
White styrofoams, working trap phone  
Mama pray for me to keep make it back home  
I can't leave the streets 'cause the streets my backbone  
I pour all my problems in the cup and get zoned  
I haven't been in here 10 minutes and the check gone  
Who the hell y'all tryna flex on?  
Got racks so long, throw it straight 10 song  
What up in the bitch, feeling like Al Capone  
Jury Al, but you must not seen the stone

I've been counting dirty money, sipping purple all day  
I've been counting dirty money, sipping purple all day  
I've been counting dirty money, sipping purple all day  
I've been counting dirty money, sipping purple all day

My cup is so muddy, my cup is so muddy  
My cup is so muddy, my cup is so muddy, my cup is so dirty  
I'm on that mud, yeah, I'm full of it  
I'm on that Al Cocaine, I'm full of it  
You got a pint, I got a pool of it  
Swimming pools, I know that you love it  
These Louis Vuitton's, they got studs on 'em  
These hundred dollar bills got blood on it  
I told my nigga, "Do what's best for you"  
He love that gun pile of residue  
Gunshots at your mama's house 'cause you started it  
We were everything, bought a house, we were all the shits  
We don't try, we don't try your love  
'Cause that shit forbidden  
All my young niggas eating 'cause they pieces sitting

I've been counting dirty money, sipping purple all day  
I've been counting dirty money, sipping purple all day  
I've been counting dirty money, sipping purple all day  
I've been counting dirty money, sipping purple all day  
He ain't talking money  
He ain't talking money  
He ain't talking money, don't even come my way  
He ain't talking money, don't even come my way
