

I Wish You Would

Treat Her Right

Early in the morning 'bout the break of day
That's when my baby went away
Crying and pleading don't do no good
Come back baby I wish you would

You know I love you baby can't help myself
Wouldn't mistreat you for no one else
Kissin' and huggin' late at night
Make my pretty baby feel all right

Well tell me baby what you tryin' to do
Tryin' to love me and some other man too

Staying out drinking all night long
About to drive the woman away from home
You know I love you baby can't help myself
Wouldn't mistreat you for no one else
But crying and pleading don't do no good
Come back baby I wish you would

I said come back baby I wish you would
I said come back baby I wish you would
Get back baby I wish you would
