

# A Life To Die For

Treat

I see you breathing  
I feel your love inside of me  
You found me broken  
But now I'm all I wanna be  
You saved my world when it began to fall apart  
Now here's a message from the bottom of my heart

You gave me a life to die for  
When all I had was make-believe  
A life to die for  
Now I know what it means  
Living an endless encore  
With angels singing by my side  
A life to die for  
A love like yours makes me wanna live

I thanked you, no really  
It's just as real as it can be  
The bad days are over  
And it's as far as I can see  
I don't think I ever would have made it on my own  
I was hardly breathing by the time you came along

You gave me a life to die for  
When all I had was make-believe  
A life to die for  
Now I know what it means  
Living an endless encore  
With angels singing by my side  
A life to die for  
A love like yours makes me wanna live

Am I asleep or awake? Oh yeah  
Is it a mirror about to break?  
But I feel no pain  
It's as real as rain  
I won't let it slip away

You gave me a life to die for  
When all I had was make-believe  
A life to die for  
Now I know what it means  
Living an endless encore  
With angels singing by my side  
A life to die for  
Loving you makes me wanna live

(A life to die for) Yeah  
(A life to die for) Makes me wanna live
