

I Don't Miss the Misery

Treat

I was a man with a mission
when I got lost in space
Saw the seeds of creation
blowin' up in my face, yeah!

Now I'm movin on - ch-ch-changes
Turning pages - all the damage's done

I don't miss the wolf's cry
in the dead of night,

the dark side of shining bright,
heartbreaks from running wild and crazy
I don't miss the misery

Deep down there's no stone unturned
Some fools just never learn
Won't hold on 'til I crash and burn, baby
I don't miss the misery

can I take a rejection
Some gravel skating the ice yeah!
I guess love and affection
always comes with a price

And I know it's a habit
Gotta break it - sing another song

I don't miss the wolfs cry...
