

Ever She Flows

Treble Charger

The tone you take
I turned off the ring
You mind your dates
I'll fill it in

Please see these once
Please see them in
I'll let alone

Ever she flows
Like a veil undeciphered
It's me who knows by the way
It's my mistake

You'll have to wait
I haven't bothered
To offer up debate
I think that's obvious

We see these once
We see them in
I'm not alone

Let's get do this twice
Unlike today, start again
It's what you chose in the end
