

Pilot Light

Treble Charger

You cant find me
You cant find me again
You cant drive me
You cant drive me again
Shot down again if its easier to be alive
Kept on the mend you expected these things to arrive
I cant pretend theres nothing i dont like
I cant pretend
You cant hurt me
You cant hurt me again
You cant kill me
You cant kill me again
Shot down again if its easier to be alive
Kept on the mend you expected these things to arrive
I cant pretend theres nothing i dont like
I cant pretend
If you listen to me
Ill just drag you down
Im going nowhere again
dont keep hanging around
Dont keep hanging around
