

Better Off Now

Trent Dabbs

So easy to hurt'n,
So hurt to forgive,
There's no getting over,
The people we've been.

But it sounds like a question,
When we say 'this is it',

Won't you stay around?
Tell me that we're better off now,
Wait it out,
Tell me that we're better off now,
We're better off now.

From the first time we heard it
We were quick to believe
That light on the surface
Was dark underneath,
You were enough to be nervous
But we just couldn't quit.

Stay around,
Tell me that we're better off now,
Wait it out,
Tell me that we're better off now,
We're better off, better of now.

But say that the sun might show up here tomorrow
And we could go back to that place
But say that the sun might show up here tomorrow
And we'll find a love we misplaced.

Just tell me that we're better off now,
Just tell me that we're better off now,
Just stay around,
Tell me that we're better off now,
We're better off now.
