

# Come Home Safe

Trent Dabbs

[Verse 1]

See the valley deep  
You're like water at the foothills  
Got you running like a stream  
You know there's too much world to see still

[Chorus]

But come home safe  
Come home safe  
Any given day  
Any given night  
You went running out the gate  
No, you never lost your place  
You never left my mind  
Won't you come home safe?  
The door is always open wide

[Verse 2]

I'm talking visionary  
The higher the climb  
The deeper the desire  
And there's nothing like hope to carry  
A hundred million miles to touch the holy fire

[Chorus]

Just come home safe  
Come home safe  
  
Any given day  
Any given night  
You went running out the gate  
No, you never lost your place  
You never left my mind  
So won't you come home safe  
The door is always open wide

[Bridge]

All around the world  
Around the world and back  
Touch the greatest lights with everything you have

[Chorus]

Just come home safe  
Just come home safe  
Any given day  
Any given night  
You went running out the gate  
No, you never lost your place  
You never left my mind  
Just come home safe  
The door is open, open wide  
Come home safe  
The door is open, open wide
