

Take It All In

Trent Dabbs

You never thought you'd be standing here
Never in a million years Alone

Is it comfort, is it fear?
Draw a line and watch it disappear
Try to remember before it goes
Soak in the highs and feel the lows

Take it all in, take it all in
Never forget this now
Take it all in, take it all
This is what life's about
So take in all you know

Walking with another blindfold on
Through stories you might not touch again
Never time to see a light turn off
You know another's gonna come shinin' in
Try to remember before it goes
Soak in the highs and feel the lows

Take it all in, take it all in
Never forget this now
Take it all in, take it all
This is what life's about
So take in all you know

Take it all in, take it all in
Never forget this now
Take it all in, take it all
This is what life's about
So take in all you know

I wouldn't change a thing
I wouldn't change a thing
I wouldn't change a thing
