

Time Decides

Trent Dabbs

Time decides
How long is gonna take waiting for a great divine
Time decides
How long is far away
How long until we cross that line
It's not us alone
It's here and then it's gone
So we can only the time decide
Time decides
Looking what we made
Looking what is left behind
Time decides
If you're playing safe
If you should to change your mind
It's not us alone
It's more of what we've known
So we can only the time decide
And if it takes a turn on me then let it be
And if it takes eternity then I don't mind
If time decides.
It's not us alone
It's here and then it's gone
So we can only the time
Time Decide
