Relax, relax (Make your mind) Make your mind with me With me

I'm on my (my), way home (home)
About to hit the exit
Do you need some (some)
Cause I know you had a long day, whoa
Do you miss me? (me)
Cause I miss you (you)
And that sexy little thing
You make your lips do
Way your hips move
Keep me thinking about the
Love I wanna give you (give you)

You deserve the world,
If I could give it
Stars would come to you
And ask permission to shine
Cause only you shine

And tonight I got your
Neck, shoulders, back (back, back, back)
Baby I'm a touch on all that
Once I pull in the garage
(Once pull in the garage)
Once I hop up out the car
(Once I hop up out the car)

I'm gon' relieve your
Stress (stress) yes (yes)

Tonight I'm gon' be working all that
Lose the panties and the bra
(Take 'em off)
I'm a start with a massage (massage)
