

I'll Return Again

Tribal Seeds

When you call me
Don't you worry
Cuz I may be away, I'll return again yea
When you call me, don't you worry
Cuz I may be away, I'll return again

Never ever wanted to offend
Cuz I have no reason
Things I have to do
All the while I'm missing you
Life on the road can be so damn fun
But don't feel no way, you're my number one
So what more can I do girl
What more can I say, yea

So get through the doubt, get through the fight
Though the road is rocky, never lose sight
Though I'm not there please be aware
Thoughts of you linger in my mind
Pictures of you and you look so fine
And every line reminds the good times
And these words that I share
I hope they get to reach your ear
So what more can I do girl
What more can I say, yea

When you call me, when you call me
Don't you worry, I'm in a hurry
