

# Rock the Night

Tribal Seeds

Rejoice, give praise  
Give Ises in his name  
The whole wicked flee away when them hear Iyah chanting  
Rock away your bluesy feelings  
Roots music won't let you down  
Still can't see it, invisible music  
But they can feel when it's around  
Radio today is for the masses, yeah  
I would never take it instead  
Them a want to feed, they come at night  
But nah we nah go fright, we ago fight  
Come to rock them right yeah

We come to rock the night away, away, away  
We come to rock the night away, away, away

Search for the teachings, hold Jah's truth  
Ya nah go find these teachings in a school room

Keep us in the dark we ago find the light  
We never gonna lose Jah's sight  
Strive for your vision mi Bredren  
Strive for your vision I Sistren  
Na gonna be no easy street  
Them flee them flee I yard them flee  
Watch all them backlins them retreat  
Say they hold we down, mash up the children  
Can't hold we down, mash up the system  
But nah we nah go fright  
We ago fight, we a fight them

Radio today is for the masses, yeah  
I would never take it instead  
Them a want to feed, they come at night  
But nah we nah go fright, we ago fight  
Come to rock them right yeah
