

Execution

Tribuzy

Make your future
Be a leader
Write your name through the times

It is a new game
Learn how to play
They bet with your life

And now

They asked you to gamble
Betting your temple
The place where you are divine

They want to invade your heart
Putting you in the dark
And make your mind so blind

Any constitution?
No
Any emotion?
No
We live our lives in the
Execution times!
Don't wait for the hit
No
Dig your pit
Now
We live our lives in the
Execution times!

Be the difference
Not the ignorant
Spread the wings of your mind

You broke your trance
It's your last chance
We don't have too much time

You know

They just want to do something
That brings nothing
Better into your life
To them you have no dreams
Your life has no means
For you they are giving a shit

Any constitution?
No
Any emotion?
No
We live our lives in the
Execution times!
Don't wait for the hit
No
Dig your pit

Now
We live our lives in the
Execution times!
Don't fight their wars
No
Have more to fight for
Now
We live our lives in the
Execution times!
Tyranny
No
Democracy
No
Are just mere words
In the execution times

We must find some peace
Somewhere in this giant world
I can't believe that it's gonna be
The end for all of us!

We spent our days living full
Of greed and with no love
Now we reach a point where
We think there's no more hope

We cannot go on
Living this way
Or we're gonna
Fail with all
To kill us all
We're signing our sentence of death
Without any shame

We must to react to the fact
That we will not have
A second chance in our lives

There's no time to fear
Dry your tears
Before your body dies

Any constitution?
No
Any emotion?
No
We live our lives in the
Execution times!
Don't wait for the hit
No
Dig your pit
Now
We live our lives in the
Execution times!
Don't fight their wars
No
Have more to fight for
Now
We live our lives in the
Execution times!
Tyranny
No
Democracy

No
Are just mere words
To explanation
To the nation
The execution times
