

# Call Me

Tricky

I'm calling you  
I'm calling you now  
And I won't wait  
And I won't change now  
Or rearrange  
It might get strange now  
It might get strange now  
Just falling free  
Just fall in me  
And I'm your coffin  
And I'm your coffin  
For endless sleep now  
For endless sleep now  
Little sunbeam  
I hear you scream  
I feel your heat now  
I feel your heat now  
Here's to one way sleep now  
I hear trees scream  
Ain't the people mean?  
What do they mean?  
It's time to sleep now  
It's time to go now  
I wait for you, I wait for you  
I wait for you, I wait for you  
I wait for you  
Little sunbeam  
I can hear you scream  
I can feel your heat now  
I can feel your heat now  
Here's to one way sleep now  
I hear trees scream  
Ain't the people mean?  
What do they mean?  
It's time to sleep now  
It's time to go now  
I wait for you, I wait for you  
I wait for you, I hate for you  
I wait for you, I hate for you  
I wait for you, I hate for you  
I wait for you, I hate for you  
I wait for you, I hate for you  
I wait for you, I hate for you  
Hate for you  
I wait for you, I wait for you  
I wait for you, I hate for you  
I hate for you, hate for you  
I hate for you  
I can feel your heat now  
It's time to go now
