Does it make you feel good Make you feel hood Can I fall for your veins

Can you fall from the sky Will you leave me and die Will you come back again Will you meet me at term Where are the protesters The slogans insane This will be a swift decline I wouldn't be coddled in love I wouldn't be coddled in love Will you fight for a cause Will you break all the law Will you come back again Remember by when Are you living free Are you living in me Does it make you feel good Make you feel hood Where are the protesters The slogans insane This will be a swift decline I wouldn't be coddled in love I wouldn't be coddled in love Where are the protesters The slogans insane This will be a swift decline I wouldn't be coddled in love I wouldn't be coddled in love
