

## Hot Like A Sauna

Tricky

Round the corner  
Turn the corner, turn  
Hell is round the corner hot like a sauna  
I know I hurt her when I tell her that I want her  
And with this drama I act like Jeffrey Dahmer  
I beat her then I eat her nigga's sweet  
There's no one sweeter I think I lost my tweeter  
To your pussycats do you call your pistols 'gats'?  
Don't sleep her love away  
Don't let her run away  
Don't sleep her love away  
Don't let her  
Dream and I'm seein' it harmed a girl like Monica  
Everyday be like Hanukkah and change my mind again  
Hide off like to find a friend I call her 'Enemy'  
She says I act like there's ten of me  
A sketch for their clone a dog without a home  
But you want more when I was on tour  
Told her you should write a lot  
Now look how much time you got  
Told you, shouldn't run a lot  
Now look how much time you got  
Take life on the streets your own  
Made by Grease beats pure dog  
Running with the renegades of NY  
Street Dog speak the true talk  
Wanna talk about crime? Yeah right  
Stick ups- get in mind to realize, alright  
Run the airtime, fuck the police it's startin' to get hyped  
Niggas gettin' paranoid and void then imply Tetth's a bad boy  
Just gonna rap about kids that can't cope  
Dogs get mad when niggas stand broke  
With a phat rope, yo, what a joke  
Shit, I had coke and fifty pound notes  
Puffed it for those niggas I know  
Far as I know you're a freak if I bone like I go  
Trix and Milo, I roll with niggas with big machines  
Blank screens, video scenes blue, black and green  
Niggas with wigs scared the scam clean  
And get the cream- know what I mean?  
Diggin' the scene with the gasoline with enough magazines  
Them nine to fives, big executives who ride the clock  
There'll be no crime from nine to five  
There be no crime for none of us  
Livin' to find those kinds of drugs with no undercovers  
Those motherfuckers can't flop dogs  
In any form, this rough coughs quick  
I'm sick going where the Jungle is clicking  
In England the trans-Atlantic  
In Harlem where demands don't quit  
Levitating and useless debating  
In these devastating times, don't let her run away  
While everybody's just doing drugs  
And writing melodic rhymes, don't sleep her love away  
Trying to get one and not get into trouble  
I might just be inclined, don't let her run away  
We all got needs, we all do dirty deeds now

And then wanna smoke some weed, don't sleep her love away  
Yeah we're free, yes we need to be free  
Walkin' round with unsatisfying needs, don't let her run away  
Yeah we're free, yes we need to be free  
Walkin' round with unsatisfying needs, don't sleep her love away  
Come with a bang bang  
It's a hangman gettin' my prayer  
My hands can slang bang actors  
That have the will to gang slang  
That's the type of nigga that can't say  
You don't go and forget the down times  
And the walk while I was with the bad man  
Many to fly right? Master plan  
Miracle flight like Pan-Am, man, damn  
Sure as the echo 'fore that gonna pump the petrol  
Niggas with escorts hide in the get-go  
Now lay it in the ghetto, yeah y'all  
I could find life in a Paris metro  
While I'm walkin' around slammin' ghettos in the real  
Know the rapper with the black girls  
Deliverin' travels with the Maxwell's gettin' paid off girls  
Rockwell's, high L's  
Well as drop sales with Stock well  
Street Dog with a Molotov cocktail  
No no can't stop flowin' no, gettin' paid off girls  
Rockwell's, high L's  
Well as drop sales with Stock well  
Street Dog with a Molotov cocktail  
No no can't stop flowin' no  
Levitating and useless debating  
In these devastating times, don't let her run away
