

You Don't Wanna

Tricky

You want to estimate
The distance that it takes
To find a lover lover
You want to rectify
This mad look in my eyes
Then find your other lover
I found out how to be perfect for you my dear
While I was bumping around, bumping around

You want to estimate
The distance that it takes
To find a lover lover
Come on let's rectify
This mad look in my eye
Come on yes let's discover
You don't wanna face me when you
You don't wanna make me when you
You don't wanna take me when you
You don't wanna face me when you
You don't wanna make me when you
You don't wanna take me when you
Fail

One day you'll hold your head
So dark and withered dead
Oh, wish you were here
A simple task to feed
Of unforgiven greed
Oh, wish you were here
I found out how to be perfect for you my dear
For while I was bumping around, bumping around
You don't wanna face me when you
You don't wanna make me when you
You don't wanna take me when you
You don't wanna face me when you
You don't wanna make me when you
You don't wanna take me when you
Fail

You want to rectify
This mad look in my eye
I found out how to be perfect for you my dear
For while I was bumping around, bumping around
One day you'll hold your head
So dark and withered dead
Oh, wish you were here
A simple task to feed
Of unforgiven greed
Oh, wish you were here

You don't wanna face me when you
You don't wanna make me when you
You don't wanna take me when you
You don't wanna face me when you
You don't wanna make me when you
You don't wanna take me when you
Fail

You don't wanna face me when you
You don't wanna make me when you
You don't wanna take me when you
You don't wanna face me when you

You don't wanna make me when you
You don't wanna take me when you
Fail
For what
For what
For what
...
