

Faders Up

Triggerfinger

We wonder how to go on gettin' it done, gettin' it done We wonder how to get there, to being the one, being the one We wonder how to keep it, keep it alive Can you take it if we put it in full overdrive? Full overdrive

We only gotta keep the faders up Seems to be our only job We know how to do it right Brings us joy and pure delight

We ask ourselves if we can deliver the goods Ask ourselves once, ask ourselves twice, knock on wood That's your life and this is mine Pretending one minute at a time One minute at a time

We only gotta keep the faders up Seems to be our only job We know how to do it right Brings us joy and pure delight

Halfway up is not enough! Halfway up is halfway down! Halfway is not enough! Halfway up is halfway down! Halfway up is halfway down!
