

## Music & Me

**Trijntje Oosterhuis**

We've been together for such a long time now  
Music, music and me  
Don't care whether all our songs rhyme  
Now music, music and me

Only know wherever I go  
We're as close as two friends can be  
There have been others but never two lovers  
Like music, music and me

Grab a song and come along  
You can sing your melody  
In your mind you will find  
A world of sweet harmony

Birds of a feather will fly together  
Now music, music and me  
Music and me
