

Hit Me

Trillium

Transient, look what they found
I suspect both sides who claim to run the parade
They ran us into the ground
Sustenance for only one day
I prayed hard
But all they want is to keep you around

Blood will fill the streets
Unless you sow only what you want to reap

Hit me while I'm falling down
Then order me to be kissing - kissing -
Kissing the blood from my fingers that cut me down
Hit me

Recklessness is not a way out
You can't start a fire to cover the mess you've made
It only strengthens the crowd,
Jump the gun and call it all a fake
We looked up and down
And all at once you wear destiny's crown

Blood will fill the streets
Unless you sow only what you want to reap

Hit me while I'm falling down
Then order me to be kissing - kissing -
Kissing the blood from my fingers that cut me down
Hit me - hit me - hit me
While I'm falling down
Every stage portrays the rage you squall
And the damage that hit me

Did you cheat your way into the game?
How did you paint yourself into the frame?

With all the grace of ten runaway trains
You entertain...

Blood will fill the streets
Unless you sow only what you want to reap

Hit me while I'm falling down
Then order me to be kissing - kissing -
Kissing the blood from my fingers that cut me down
Hit me - hit me - hit me
While I'm falling down
Every stage portrays the rage you squall
And the damage that hit me
