

# Into The Dissonance

Trillium

Into the dissonance I fall  
Carried by an instant force  
Craving for harmony, but playing the odds  
I see a light in the tunnel  
But I step to the left  
Put my hands to my hips and do the dance  
I cannot hear you, ground control  
And it seems they cut the rope  
Weightless, I seem to fall  
And it feels so good

Into the dissonance I fall  
And I don't want to lose control  
But every moment I enjoy  
Will keep the dissonance

Yes, life was good to me, I know  
And I don't want to let it go  
I will come back soon and try again  
I'd be a raving fool to say that I wish it all away  
Yes, I knew the consequences like I knew the gains  
So do you think I'm out of tune?  
Or these tones don't fit the song?  
Just a little melody in a much bigger symphony

Into the dissonance I fall  
And I don't want to lose control  
But every moment I enjoy  
Will keep the dissonance  
Into the dissonance I fall  
And I don't want to let it go  
But every moment I enjoy  
Will keep it dissonant

Set me free, please  
Could you exorcise me  
And I'd start again  
Please help me...

Into the dissonance I fall  
And I don't want to lose control  
But every moment I enjoy  
Will keep the dissonance  
Into the dissonance I fall  
And I don't want to let it go  
But every moment I enjoy  
Will keep it dissonant
