

# By Myself

Trina

I feel like I'm by myself (Just play, just play)  
I feel like I'm by myself  
I'm here I'm so alone

Every time I turn around, I see your face boy  
I wish I was by myself (myself)  
Said I wish I was by myself  
I don't need you no, no more

Every time I turn around, I see your face boy  
I wish I was by myself (myself)  
Said I wish I was by myself  
No pain, no more, no more

All my tears and all my cryin'  
Nothin' is change cause you still lyin'  
What you're sellin' I'm not buyin'  
Don't you stop me, I'm ready to go

I don't need your circumstances  
I'll just leave it, take my chances  
Tired of playin' in fake romances  
Don't you stop me, I'm ready to go

You said that you'll be, forever truly  
How you lied so clearly  
You can start over,  
But you wont be near me

Every time I turn around, I see your face boy  
I wish I was by myself (myself)  
Said I wish I was by myself  
I don't need you no, no more

Every time I turn around, I see your face boy  
I wish I was by myself (myself)  
Said I wish I was by myself  
No pain, no more, no more

Now put yourself in my position  
I'm a late-night trickin'  
While you home cookin'  
I went my dog's right n' lookin'  
Oh we in the strip club  
Throwin' up dozens  
When you ask me for some cash  
I'm lookin' at you funny  
I ain't got no money  
Baby I'm broken  
I can do you how I wanna  
Cause I pay your card though  
Remember I've given you the check  
I'm the nigga  
I got friends so whateva'  
I understand that your betta'

You said that you'll be, forever truly

How you lied so clearly  
You can start over,  
But you wont be near me

Every time I turn around, I see your face boy  
I wish I was by myself (myself)  
Said I wish I was by myself  
I don't need you no, no more

Every time I turn around, I see your face boy  
I wish I was by myself (myself)  
Said I wish I was by myself  
No pain, no more, no more

You said that you'll be, forever truly  
How you lied so clearly  
You can start over,  
But you wont be near me

You said that you'll be, forever truly  
How you lied so clearly  
You can start over,  
But you wont be near me

Every time I turn around, I see your face boy  
I wish I was by myself (myself)  
Said I wish I was by myself  
I don't need you no, no more

Every time I turn around, I see your face boy
