

# No More

Trina

What the use of the back rub, and everything that I do that you ask for  
If I could make you feel better I don't pass up  
And now you gotta get gone  
I done spent a lot of nights trying to make it all right  
Up on cloud 9 i was on those flights  
You should've told me that you had a little fear of heights  
Before I were to think that you and me could have a life  
Created me a monster, yes i admit  
Stayed with you wen i found out about the chick  
I should have left then but I'm gonna leave now  
You ain't stepping up so I gotta step down  
You gotta understand my position  
Keep talkin so you can't listen  
You done up'd and made it all different  
When you was close it still felt distant

So I'm gonna step down, it's only right baby  
I gotta step down, cause I'm the kind of lady  
And I ain't in the business trying to keep no dude  
That ain't trying to be kept  
No, no, beating the hell out of a dead horse, out of a dead horse  
Now we ain't working no more  
Beating the hell out of a dead horse, out of a dead horse  
It ain't working no more  
I'm so tired, so damn tired  
Beating the hell out of a dead horse  
Beating the hell out of a dead horse  
It ain't working no more

We was making love like all day  
Then I guess it all just changed  
How you say that you ain't know a thang  
After all the times I complained  
You said you was thinking bout a ring  
And I was dumb enough to believe  
Putting all this stress on me, look all this I don't need  
So I guess I have to proceed  
Instead of us I'ma do me  
It's time for me to break free  
You and me together just can't be

So I'm gonna step down, it's only right baby  
I gotta step down, cause I'm the kind of lady  
And I ain't in the business creating no wish list  
They ain't even realistic  
Beating the hell out of a dead horse, out of a dead horse  
Beating the hell out of a dead horse, out of a dead horse  
It ain't working no more  
I'm so tired, so damn tired  
Beating the hell out of a dead horse  
Beating the hell out of a dead horse  
It ain't working no more

This love seems quite unfamiliar  
Words mean nothing if I can't feel 'em  
Beating the hell out of a dead horse  
Beating the hell out of a dead horse

Yeah, boy you crazy, you got this twisted  
This good loving that you gon miss it  
Beating the hell out of a dead horse  
Beating the hell out of a dead horse  
It ain't working no more, more.
