

# Wicked

Trippie Redd

The wicked clock goes tick tock  
Freezing time as it rides down your block  
Cause it's timeless  
Cause it's timeless, you dig?  
Ooh

We'll go to the moon and the stars  
We'll go to the moon and the stars  
We'll go to the moon and the stars  
Wicked, them stars in my ceiling  
We'll go to the moon and the stars  
We'll go to the moon and the stars  
We'll go to the moon and the stars  
Wicked, them stars in my ceiling

Floating around in a Wraith every day, out in space  
Smoked the first blunt in the day  
I feel omega today, I feel colossal today  
Floating around, outer space  
Speed of light, don't wanna race  
Keeping the opps on the chase  
I see stars all in my cake  
Superstar, I need a cape  
"How you feel Trip?" I feel great  
Laser beam open your face  
And it won't leave a trace  
That's why I'm feeling so safe  
Damn I'm love with this place  
Took my bitch on a date  
Gaze at the moon and stars today

We'll go to the moon and the stars  
We'll go to the moon and the stars  
We'll go to the moon and the stars  
Wicked, them stars in my ceiling  
We'll go to the moon and the stars  
We'll go to the moon and the stars  
We'll go to the moon and the stars  
Wicked, them stars in my ceiling

Jump out the whip and just float  
I got some things you should know  
Always keep faith and keep hope  
I used to play with the dope  
I used to play with the dope  
Blowing this smoke  
I just love blowing these O's  
Keeping my mind comfortable  
Hope I don't overload  
I feel like temperatures froze  
This is the life that I chose yeah  
'Cause I'm timeless, yeah  
Get treated like your Highness, yeah  
Hope the Solar System don't leave you blinded  
(Wicked)

We'll go to the moon and the stars

We'll go to the moon and the stars  
We'll go to the moon and the stars  
Wicked, them stars in my ceiling  
We'll go to the moon and the stars  
We'll go to the moon and the stars  
We'll go to the moon and the stars  
Wicked, them stars in my ceiling
