

# A Lover Is Forever

Trisha Yearwood

**C#**                      **F#m**              **C#**  
I think I understand

**F#m**                      **A7**  
The reason you won't stay with me

**F#m**  
You think a ring upon your hand

**Bm**    **C#**  
will solve you insecurity

**F#m**                      **C#**  
So go ahead and play your games

**F#m** **A7**  
If that's what you must do

**F#m**                      **Bm**  
Nothing here remains the same

**F#m**  
but the way I feel for you

**Am**                      **Gm**  
I can watch you walk away

**F#m**                      **Em** **D**    **Em**  
and I know that I'll get by

**Am**                      **F#m**  
And I know just what to say

**Bm**                      **E**    **Es** **D** **C#**  
but honey I can't tell a lie

So figure out what you must do

**F#m**                      **A7**  
I know you think you're so damn clever

**F#m**                      **D**  
You can marry any time you want

**Bm**                      **F#m**  
but a lover is forever
