

# Dancing Souls

Tristitia

Forgotten lost souls  
Dancing in the night  
Vanishing into the dark  
Dancing at the graves

Disappear into eternity  
Dancing souls fade away  
Wailing at the graves  
Dancing the dance of the dead

Stars shining bright  
Into the mist of the night  
Souls are dancing  
Until they disappear

Dancing souls

You can't see them  
But they are behind you  
Dancing in the dark  
In the mist of the night

Dancing souls

Forgotten lost souls  
Dancing in the night  
Vanishing into the dark  
Dancing at the graves
