

Love In A Minute

Triumph

I need a woman who can understand
About a back door man
It ain't no movie show that's on my mind
So baby let's make plans

Cause every night, the story's the same
The stakes get high, but we just play games
Start me up, girl it won't take much
I can't get enough

Get your love in a minute
It won't take all night
Get your love in a minute
Baby turn out the lights
Baby turn out the lights

I ain't lookin' for no one night stand
Don't wanna fuss or fight
No need for talkin' at the midnight hour
I know the time is right

So come on girl, I'll show you how
I need your touch, and I need it now
I hurt's so bad, I know it must be love
I can't get enough
