

Dance Like a Pink Flamingo

Trollfest

Everybody hit the dancing floor
Get your freak on and dance like a pink flamingo
Like a pink flamingo (Woah-oh-oh)
Everybody hit the dancing floor
Get your freak on and dance like there's no tomorrow
Like there's no tomorrow

This world is a ripe disgrace
With all the selfish whim
Like parasites we infest
Bleed all resources dry
No hope, no change will come
Power sits in comfort
We won't do anything
So why don't we all...

Dance
The fertility dance
Let them biological chemicals run through your dance
Jump
Take the bravery jump
Feel your worries float away as you step out
And...

Take a walk on the wild life side
Take a walk on the wild life side

Everybody hit the dancing floor
Get your freak on and dance like a pink flamingo
Like a pink flamingo (Woah-oh-oh)
Everybody hit the dancing floor
Get your freak on and dance like there's no tomorrow
Like there's no tomorrow

Chance
Take a little chance
Someone else will fill the need and everything will probably
Turn out great
Everything is so great
It's finally time for you to shine if you go out your door
And really...

Take a walk on the wild life side
Take a walk on the wild life side

Everybody hit the dancing floor
Get your freak on and dance like a pink flamingo
Like a pink flamingo (Woah-oh-oh)
Everybody hit the dancing floor
Get your freak on and dance like there's no tomorrow
Like there's no tomorrow

You put your head up and make a stroll around
You put your head down and take a stroll around
You take a look left and then you stroll around
You take a look right and then you stroll around
You put your head up and make a stroll around

You put your head down and take a stroll around
You take a look left and then you stroll around
You take a look right and then you stroll around

Everybody hit the dancing floor
Get your freak on and dance like a pink flamingo
Like a pink flamingo (Woah-oh-oh)
Everybody hit the dancing floor
Get your freak on and dance like there's no tomorrow
Like there's no tomorrow

We all tell selfish lies to keep on dancing
That leaves a ripened world for overlord taking
While we all rave about our own mirror reflection
One overlord will seize and take what's for the taking
