

Downfall

Troy Ave

If you praying on my downfall
(Praying on my downfall)
Better get yourself a kneepad
(Get yourself some kneepads, that thing ain't gon wait for you I promise you
it's a fact though)
If you praying on my downfall
(They say good things happen to good niggas, God knows how hard)
Better get yourself a kneepad
(Nigga must be the fact nigga too strong, praying too long, fact though)

Niggas praying on my downfall cause they don't want me to ball
Ran went through the door almost a mural on wall
Hit in my head, let on my jug
Fuck nigas couldn't even score
I clean this shit up like I'm doing a chore
Dirty money before being on tour
I got the real packs
From drug dealing, murder and killing
Being on stage with Pusha and Fab
Told ya'll i's the only life I know
Real running outta town with some bricks to blow
Never thought I would make a hit and blow
But your style did it for me white Christmas flow
I get up most steps on the ladder of success
So why am I so stressed
So why am I so stressed
Writing down my day in diamonds clear as light
In the mirrored light like how you pick up your checks
Money buys my happiness I pick up more checks
I've been let down by many so had to pick up and go get
Empty promises, just a past of the process
Told myself I'd be rich and i wouldn't settle or no less

If you praying on my downfall
(Praying on my downfall)
Better get yourself a kneepad
(Get yourself some kneepads, that thing ain't gon wait for you I promise you
it's a fact though)
If you praying on my downfall
(They say good things happen to good niggas, God knows how hard)
Better get yourself a kneepad
(Nigga must be the fact nigga too strong, praying too long, fact though)

Still praying on my downfall but they ain't holding
Till I send a couple round tours then they be holding
Do these things by my lump sum cannot decode these
Kush just a nigga I don't smoke a lot I cannot do Opi's
Fuck the police and fake ass code in these streets
Niggas be preaching until it don't benefit them then they go to the [?]
It's a handicap way of seeing cause that will keep you on the scene
Is that to keep you from achievements
I took the crabs with the bounce [?]
I don't want no fake niggas around me
I don't want no fake bitches around me
Keep your bad vibes, keep your bad vibes
Keep your bad vibes, keep your bad vibes
I don't want no fake niggas around me

I don't want no fake bitches around me
Keep your bad vibes, keep your bad vibes
Keep your bad vibes, keep your bad vibes

If you praying on my downfall
