

## Come Hither

Truly

Rolling out the carpet for the first one who  
Knows why  
The virtuous girls and automatic boys, they  
Ever came to life

Throw 'em the ball give her a call  
When you know the moments arrived

Wreaking havoc and breaking the tablets  
What's new with you?  
Wreaking havoc and breaking old habits  
what's new with you?

Rolling over the underworld and surfacing for  
Last call  
Anthony's ecstatic his eyes are dramatic  
He turns his face to the wall

He's lonely in the shadows tonight  
Shot out of the bathroom  
Ready for flight

I didn't recognize, the face behind your eyes  
You look like someone made you sleep outside

The intoxicated moon  
Is spilling over  
Floods into your room  
There's no ducking out of view

Wreaking havoc and breaking old habits  
What's new with you?  
Creatures of habit are taking the tablets  
What's new with you?
