

Slumber with the Worm

Tsjuder

So silent - all silent
So dark - all dark
Thrust down deep, deep and forever
Into the subterranean night
Putrefaction is pain
Hope is futile

Such despair, such wretchedness
Such intense primal fear

A hellish scream
Endeavour to shriek through parched lips
A deep breath of sand
Into rotten cavernous lungs

Time to slumber with the worm

Silent - all silent
Dark - all dark
Thrust down deep, deep and forever
Into the subterranean night

Reveries and death
A pathetic acceptance of pain
No hope, no care, no effort

Time to slumber with the worm

A hellish scream
Endeavour to shriek through parched lips
A deep breath of sand
Into rotten cavernous lungs

Time to slumber with the worm

Slumber with the worm
