

# Daddy

Tulisa

Yeah, you make me feel alive  
No one else ever did it right  
When you lay my body down  
You just lock up, lock up my crown  
I never feel lonely  
'Cause you're down like my homie  
As well as turn my body out  
You're the baddest boy, baddest boy 'round

You give me thrills, still keep it chill  
Never give me pressure, boy, your mind is so good  
That you know just how to play me  
Like a guitar hero, boy, you save me  
Honey, we get so complicated  
But I ain't complainin'

I wanna call you daddy  
Make you want all my love  
Come over 'cause I'm ready  
Too much is not enough  
You're unforgettable, forgettable, forgettable  
It's like we been here before, here before, ah  
(I wanna call you daddy, call you daddy  
I wanna, I wanna call you daddy, call you daddy  
You're unforgettable)

It's like we move in slow motion  
We're a wave like the ocean  
We're a high that we're floating  
Boy, your grass is so green with emotion  
As we go through the night  
Got me saying, "Oh my"  
You're the one that I'm choosing  
You're the baddest and, boy, you damn proved it

You give me thrills, do keep it chill  
Never give me pressure, boy, your mind is so good  
That you know just how to play me  
Like a guitar hero, boy, you save me  
Honey, we get so complicated  
But I ain't complainin'

I wanna call you daddy  
Make you want all my love  
Come over 'cause I'm ready  
Too much is not enough  
You're unforgettable, forgettable, forgettable  
It's like we been here before, here before, ah  
(I wanna call you daddy, call you daddy  
I wanna, I wanna call you daddy, call you daddy  
You're unforgettable)

Your giving shocked me and it ain't no drive by  
I'm thinking house on a house with a sky line  
It's my birthday July  
Where are we gonna fly?  
If I call you daddy

Tell me, would you mind it?

Tell me, would you like it? Would you like? Would you like?

I wanna call you daddy

Make you want all my love

Come over 'cause I'm ready

Too much is not enough

You're unforgettable, forgettable, forgettable

It's like we been here before, here before, ah

(Daddy, daddy, call you daddy, daddy

I wanna, I wanna call you daddy, call you daddy

Daddy, call you daddy, daddy

I wanna, I wanna)
