be not afraid.

tUnE-yArDs

Tell me what you really want
Tell me what you really want
Nothing
Nothing
Nothing, really

Be not afraid
Spit out your mouthful
What they can't take
Won't be your downfall

Be not afraid
Others will follow
Take what life gave
Eat up and swallow

Tell me what you really want
Tell me what you really want
I know we never say it straight
But go ahead and change the game-o
I'll hold your hand, you be bold and tell me what you can

Sweet child, we set you up to die
So now you take my life, it's my time
Don't regret a thing
Don't worry 'bout me, don't worry 'bout me
It's my time
Don't regret a thing, just sing

Be not afraid
Spit out your mouthful
What they can't take
Won't be your downfall

Be not afraid
Others will follow
Take what life gave
Eat up and swallow
