

## Real Live Flesh

tUnE-yArDs

I'm not your fantasy girl  
I'm not your fantasy love  
I'm not your fantasy flesh  
That fits you like a tight glove

I know I've been away so long  
You love me only in your dreams  
But wake up  
And see the whole line of what I'm giving

I know I've been away so long  
You've loved me only in your dreams  
Lucky for you, I do much better in real life

I know I've been away so long  
You love me only in your dreams  
Lucky for you, I do much better in real live flesh

We are not what you wanted,  
We are not what you asked for  
Look at us  
There's a pretty smile on a lion's roar

I know I've been away so long  
and maybe you ca-ca-ca-can't remember  
Look at me baby, look at me baby  
No no dream will end if I scream

I know I've been away so long  
You love me only in your dreams  
Lucky for you, I do much better in real life

I know I've been away so long  
You love me only in your dreams  
Lucky for you, I do much better in real live flesh
