

I bail out
And take off
In the desert dust behind me
The hounds are trying to sniff out my wrongs
I'm walking a wire
If I step one foot out of place
They will feed me to the afterlife

I punch it into the future
I'm gunnin' straight for the borderline

I've got no time for indecision
I've got to keep moving on
I'm gone, gone, gone
I've got no time for redemption
Adios
And so long

In a blink
It was done
How quickly anger turns to prayer
Staring down the business end of a gun
The sweat of remorse
He deserved a one way ticket to Jesus
So I passed one on

I cut and run to the future
I'm gunnin' straight for the borderline

I've got no time for indecision
I've got to keep moving on
I'm gone, gone, gone
I've got no time for redemption
Namaste
And so long

A sinner with a scandalous face
This world is just a dive
Where everyone knows my name
Oh, I've got no time for redemption
Auf Wiedersehen
And so long

I've got no time for crucifixion
I am a son of a gun
I'm gone, gone, gone
I've got no time for confession
What I've done, I have done
A sinner with a scandalous face
This world is just a dive
Where everyone knows my name
No, I've got no time for redemption
Goodbye
And so long
