

Long Way Home

Twelve Foot Ninja

Get away!
You're like a fart with a face
Get away!

Get away!
A glitch in the tape
Get away!

Get away!

I don't know where I left the antidote
Now my day's a sea of cortisol
It turns my head into a cannonball
So far to FALL!

We'll be taking the long way home
Your head grenade might detonate and ricochet
We'll be taking the long way home
The table guests all made requests we can't digest
We'll be taking the long way home
Keep inside the ride and give your little arms a lullaby
We'll be taking the long way home
Relax into our psychodrome catacomb

I take a left although I signal right
I like the pressure when the walls collide
I ate a diamond and it broke my jaw
But it won't break the FALL!

Thank you for great service
I feel so relieved
Guaranteed
I'm off to buy a gun and be offended

We'll be taking the long way home
Your head grenade might detonate and ricochet
We'll be taking the long way home
The table guests all made requests we can't digest
We'll be taking the long way home
Keep inside the ride and give your little arms a lullaby
We'll be taking the long way home
Relax into our psychodrome catacomb

LONG WAY HOME!

Get away!
We are reversed
Get away!

Get away!
I'll eat the universe
Get away!

Get away!

Get away!
We are reversed

Get away!

Get away!

I'll eat the universe

Get away!

Get away!
