

Compromise

TWiiNS

I don't want a little piece of you
In between what you do
I don't want a waste of time
I know that I can get the right
Don't wanna walk away
But there's nothing more to say
You got the best of me
I got the rest of you

I know I am gonna lose
There is only room for you
And the score will leave me bruised
Cause you know

It's everything or nothing
More than you are giving
I know what I'm waiting for
And I know I will never compromise
Everything that we have
It will never be the same
I know how it should be
And I couldn't find it here

And I, and I, I don't wanna compromise
And I, and I, I don't wanna compromise

It is not enough for me
If it;s not what it could be
I need to know that you'll be there
I need to know that you care
Do you how much I tried
To stay by you side
I overruled of my heart
It tore my life apart

I would rather go without
If this is what it's all about
Cause I won't be trading down
Cause you know

It's everything or nothing
More than you are giving
I know what I'm waiting for
And I know I will never compromise
Everything that we have
It will never be the same
I know how it should be
And I couldn't find it here

And I, and I, I don't wanna compromise
And I, and I, I don't wanna compromise

It's everything or nothing
More than you are giving
I know what I'm waiting for
And I know I will never compromise
Everything that we have

It will never be the same
I know how it should be

It's everything or nothing
More than you are giving
I know what I'm waiting for
And I know I will never compromise
Everything that we have
It will never be the same
I know how it should be
And I couldn't find it here

And I, and I, I don't wanna compromise
And I, and I, I don't wanna compromise
