

## Slip Of The Tongue

TWiiNS

Everybody at the party's down with a groove  
I can see you checking out my every move  
On the floor you want more  
I'm intrigued what you seek to explore  
It's getting hot and heavy I can baby feel the blaze  
My head is spinning as you're reaching second base  
Guess how far can you get stay right there  
I'm out of breath need some air

Back at the scene  
I was only gone a minute  
This is just mean  
Even I have got my limits  
In front of my eyes  
Dirty game you play  
Now that I have got your number what you gonna say

O-o you said  
You didn't mean it  
O-o I just can't believe it  
O-o you kissed another one  
O-o yeah right  
Slip of the tongue

Stop explaing I'm not waiting  
You can talk to my hand  
It was very entertaining  
But we reach the end  
Now get lost in the crowd  
Save your breath we never met cut it out
