

We Know Love

Twila Paris

Everyone looks for love
So hard to see
Hiding around the world
Hiding from me
One Love is always the way that it seems
One Love does not seek its own private dreams
This Love is free
We know Love

Some love is in the air
Easy to start
Some love is everywhere
Hurting some heart
One Love would give up itself for a friend
One Love is faithful and true till the end
This Love is Him

By this we know Love
By this we know Love
That He laid down His life
Laid down His life for us
We know Love

Some love is fragile and easy to break
Careless and shallow and so much at stake
This Love is not just the way that we feel
This Love is powerful fire and steel
This Love is real

By this we know Love
By this we know Love
That He laid down His life
Laid down His life for us
We know Love

We know Love and we will live it
We know Love and we will give it
We know loving arms around us
We know Love for Love has found us

By this we know Love
By this we know Love
That He laid down His life
Laid down His life for us
We know Love
We know Love
We know Love
