

Cell Mate

Twin Atlantic

Fever
Another case of honour
Mixed in with paranoia
There's only so much more of this that I can take

Follow
The crooks are in their office
Putting whisky in their contracts
Coffee as well

They're sick
They're sick to the core
I've never needed you more

Don't let me down
From so far away
'Cause I'm you're cell mate
Yeah I'm you're cell mate

Shattered
All over the front pages
The owners are all racists and faceless so
They lock me up to shut me down

Outrage
Breaks out across my city
Watch my people stand up with me
'Cause they know

They're sick
They're sick to the core
I've never needed you more

Don't let me down
From so far away
'Cause I'm you're cell mate
Yeah I'm you're cell mate

And I'll be around
Each and every day
'Cause I'm you're cell mate
Yeah I'm you're cell mate

Locked in, locked in
And I didn't even do it

Don't let me down
From so far away
'Cause I'm you're cell mate
(Locked in, locked in)
Yeah I'm you're cell mate
(Locked in, locked in)

And I'll be around
(Locked in, locked in)
Each and every day
(Locked in, locked in)

'Cause I'm you're cell mate
(Locked in, locked in and I didn't even do it)
Yeah I'm you're cell mate
(Locked in, locked in and I didn't even do it)

Locked in, locked in
