

Hey, outside  
A sinking feeling  
Hey, we hide  
Hey, a car crash  
Our last chance

People love their own voice more than anything  
People laugh, people scream until you listen to them  
I wouldn't listen to them  
Listen up, listen up

Ah listen up if you stay awake  
People love, people hate  
Tell them I can't change  
I can't change, change

Change, I can't change  
I can't change  
I can't change

Bigger than a miracle she said  
I want to live it out  
I want to live it out  
Stronger than a chemical she said  
I want to live it out  
I want to live it out

Hey, inside  
My wishful thinking  
Hey, we try  
Hey, to hold back attacks

People walk the same road every single day  
People laugh, people scream until you listen to them  
I wouldn't listen to them  
Listen up, listen up

Ah listen up if you stay awake  
Keep the faith, people fade  
I can't change  
I can't change, change

Change, I can't change  
I can't change  
I can't change

Bigger than a miracle she said  
I want to live it out  
I want to live it out  
Stronger than a chemical she said  
I want to live it out  
I want to live it out

A killer in the roar and I think he said that nothing can break  
Well it take

Nah nothing in the world it seems to know that now I know that nothing can b

reak  
It can break

Feeling like a fucking snake now I know that nothing can break  
It could break

Walking in a sale of anonymous and nothing can wait  
It could break

I can't change  
I can't change  
I can't change

Bigger than a miracle she said  
I want to live it out  
I want to live it out  
Stronger than a chemical she said  
I want to live it out  
I want to live it out
