

Step back into the river
Float away, realise I want to raise the day
Want to raise the day.
And call them out into the streets,
Face the wall, this side I want to run away
Want to run away.

My hands are only extensions
We walk, we keep each other away

We're lightspeed, lightspeed
Lightspeed lightspeed
they're never gonna get us all
They're never gonna set us free

We're lightspeed, lightspeed
Lightspeed lightspeed
they're never gonna get us all
They're never gonna set us free

You and I were meant to be
Fusing fate, together,
We're making history
Making history

And melt it off, to save the coast
I'm in line, I'm in line
For the overdose, for the overdose

My hands are only extensions
We walk, we make each other away

We're lightspeed lightspeed
We're Lightspeed lightspeed
They're never gonna get us all
They're never gonna set us free

We're Lightspeed lightspeed
We're Lightspeed lightspeed
They're never gonna get us all
They're never gonna set us free

We move, we move at night
Along, together, together we might
Just move as fast as light

We're lightspeed lightspeed
We're Lightspeed lightspeed
They're never gonna get us all
They're never gonna set us free

We're Lightspeed lightspeed
We're Lightspeed lightspeed
They're never gonna get us all
They're never gonna set us free
