

Missing Link

Twin Atlantic

Running round in circles cause nothing ever happens to me
And you'll never tell what I think
Passionate failure animal instinct
Swimming in the basement floating with the birds and the bees
And I wonder if their heart sinks
Nature is evil
Progress is extinct

I'm bad for you
You can't quit it but you know it's should
That feels so good you put me down just to lift your mood
I'll take you higher, take you higher
Don't stop keep it coming on wires
I am bad for you so close you could touch the truth
We've got everything to lose, the missing link, missing link as you

Fuel is in the fire
Don't you want to have what I need
Haven't you guessed yet
I don't regret it
Wishing for pleasure yet begging you please
I'm running around in circles cause nothing ever happens to me
One second to amend it
Independent
Infinite safety to kill then repeat

I'm bad for you
You can't quit it but you know it's should
That feels so good you put me down just to lift your mood
I'll take you higher, take you higher
Don't stop keep it coming on wires
I am bad for you so close you could touch the truth
We've got everything to lose, the missing link, missing link as you

The missing link
The missing link
The missing link
The missing link
The missing link
The missing link

I'm bad for you
You can't quit it but you know it's should
That feels so good you put me down just to lift your mood
I'll take you higher, take you higher
Don't stop keep it coming on wires
I am bad for you so close you could touch the truth
We've got everything to lose, the missing link, missing link as you
