

# Oceans

## Twin Atlantic

Happier than I was before  
I'm hoping now you're here  
I'm able to handle it

I'm drifting along coastlines and shores  
On stepping stones  
Just building my confidence

And I'm making visits to the sea  
For visions of you and me  
And when I get there I will row  
Oceans between me and my home

'Cause I  
I don't wanna live  
Don't wanna die alone  
And it's true  
There's nothing out there for me without you

I'm making ends meet fixing up cars  
Yeah it's the only thing that's keeping my mind awake  
Drifting between my favourite bars  
All those nights I should have been there for you

And I'm making visits to the sea  
For visions of you and me  
And when I get there I will row  
Oceans between me and my home

'Cause I  
I don't wanna live  
Don't wanna die alone  
And it's true  
There's nothing out there for me without you

And there's nothing I can say  
I gave up my life that day  
Making sure I was doing just what it takes

A blur of a life lived fast  
Yeah my heart stopped when you passed  
But there is one thing I wanna say

Is I  
I don't wanna live  
Don't wanna die alone  
And it's true  
There's nothing out there for me without you
