

# Never Say Never

Twisted Sister

Hello. It's me again  
The thing that wouldn't die  
You thought you had me beaten  
Now you can't deny  
Never woman fire

And it's hard inside to burn  
They see light up there  
And lyin' they take the turn

No, no, no never, no never  
No never say never again

Why did you waste your time  
On those who don't deserve  
No nothing flow or sail or get your body there

Wanna let you lookin' at the infiltrated bush  
I've got two words for you that can't be misunderstood

No, no, no never, no never  
No never say never again

No, no, no never, no never  
No never say never again

Hey, you think you never thought  
You'd had to face the noise  
And nice played back up friend  
Was singin' all the voice  
And now you're prayin'  
You'd got free and you'll not fail  
But you'll be goin' to the steamin' iron hell

No, no, no never, no never  
No never say never again

No, no, no never, no never  
No never say never again
