

The Beast

Twisted Sister

You can hear the thunder long before the storm
But you can't hear the lion when he stalks his prey
He's moving like a shadow, creeping up on you
And like a siren's call he's gonna have his way
You'd better run, forget your pride
Don't make a stand, just step aside
If you don't have what it takes, don't try to play, you'll lose
your stakes
Remember this at least

It's the nature of the beast
It's the nature of the beast

You won't hear a footstep comin' up on you
Movin' like a snake he's in complete control
This killer knows his business, he is the predator
You are his only target, you're his only goal
What will you say, what will you do?
Your wildest nightmare's comin' true
There is nothing you can say, no way to change, he won't delay
This cain will have his feast

It's the nature of the beast
It's the nature of the beast

If you play you're bound to lose, don't roll the dice, don't tu
rn the screw
Just listen to the priest

It's the nature of the beast
It's the nature of the beast

It's the nature of the beast
It's the nature of the beast
